Dear WhaleTeq partners,

I am writing this letter to share my review of TheWhaleTeqtoolsfor our ECG chip development testing.

I listed the reasons why I want to recommend the WhaleTeq test tool:

1. It helpedmy team understand related standards.
2. Thesetools generatedprecise waveforms thatwere required by the standards to speed up ECG verification.
3. These tools made it easy to replicate the issues that clients are interested.

WhaleTeq provides very useful products for us on ECG verification; which can accelerates our chip development.

Sincerely,

Jerry Kuo

Analog IC Design Manager
